

# BE PART OF THE GLOBAL MINING COMMUNITY AT MINEXPO INTERNATIONAL® 2021

SPONSORED BY

For three days this September, MINExpo INTERNATIONAL® 2021 is the place to explore in person every level of mining. With more than 61,000 sq.m., 11 halls, 6 country pavilions and more than 1,200 exhibitors, MINExpo® 2021 delivers solutions—imaginative new products and services, innovations and technologies, and opportunities to talk to technical experts that lead to lower costs, increase profitability, improve safety, and manage risk.

The range of exhibits is unparalleled. All types of equipment—excavating, materials handling and haulage, processing and preparation, drilling, engines and power sources, electrical systems, safety—as well as communications and robotic technologies, artificial intelligence, data management, analytical tools and engineering, construction, mining, or reclamation services can be found under one roof at the Las Vegas Convention Center. On average an attendee finds 11 new suppliers at MINExpo®.

## INTERNATIONAL BUSINESS CENTER

MINExpo® wants your visit to be easy and efficient. The International Business Center is available to:

- Conduct private business meetings
- Provide business services and facilitate communications
- Translators in the IBC to facilitate communications in Arabic, Chinese, French, German, Russian, Portuguese, and Spanish

## MATCHMAKER PROGRAM

MINExpo® 2021 features an on-line Matchmaker Program that will facilitate attendees' access to exhibitors. As part of advance registration, each attendee will be asked to indicate those products and services they are interested in seeing at the show. Then, a few weeks before the show, each attendee will receive a list of the exhibitors matching the products and services they indicated. The list will include a link to the website of each listed exhibitor. The Matchmaker Program lets attendees learn more about companies and products prior to the show so that they may use their time at the show more efficiently.
