

Immersive Technologies to Showcase Proven Solutions and Unveil New Technology at MINExpo 2021

Workforce skills development remains one of most effective levers for driving increased safety, productivity and cost reduction in the mining industry. At MINExpo 2021 Immersive Technologies will demonstrate proven and tested solutions as well as unveil significant technology advancements to improve the effectiveness and efficiency of workforce training.

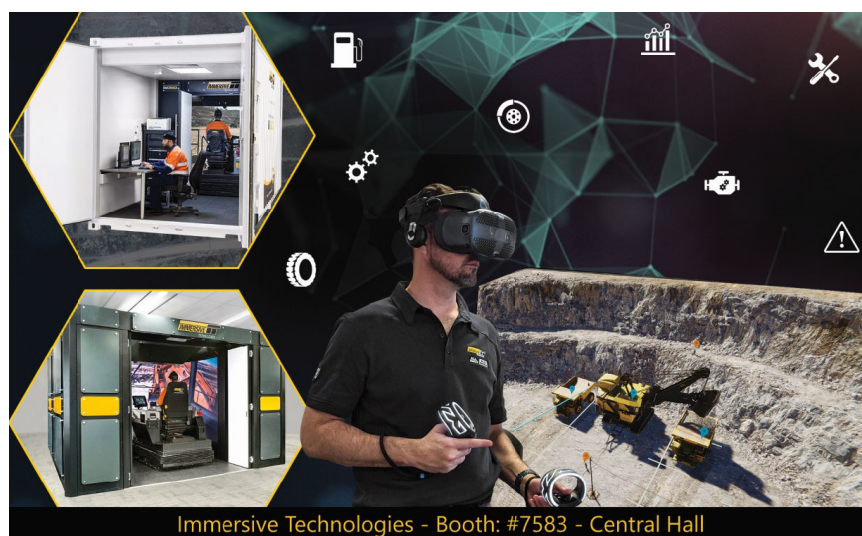

The showcased solutions (People + Process + Technology) are optimized for specific mining applications including surface, underground, manned and autonomous operations. The solutions fulfil requirements across multiple mining job roles including:

- **Advanced Equipment Simulation** – training for Heavy Equipment Operators
- **Mine Standards Training (VR and 3D environments)**- training for Supervisors and other field-based roles
- **Performance Analytics** – tools for Supervisors, CI Teams and Training Managers
- **Autonomous Training** – training for entire workforces

Immersive Technologies work with mining companies to solve real industry challenges and look forward to hosting you for discussions at their MINExpo booth. The company supports training and continuous improvement solutions for any OEM fleet or mining application. Insights will be presented from projects spanning 300+ mines across 45 countries ensuring there is something valuable on display for every MINExpo attendee. Regardless of the size of operation, we have experience to help optimize your workforce for greater mine safety and profitability.

Location: Central Hall – Booth #7583
