

Schwing Bioset Mining Solutions Featured at MINExpo 2021 Exhibit

The Team at Schwing Bioset, Inc. (SBI) is excited to finally be exhibiting at trade shows again! The MINExpo 2021 event is just around the corner, happening September 13-15. Please be sure to stop by our booth (**#1223**) while you're on the exhibit floor to see our equipment in person, check out product videos, and learn about how we can help your mining operation.

As a recognized leader in the Mining Industry, Schwing Bioset provides Mining Pumps designed for paste, thickened tailings, slimes, and any other high solids slurries, pumping application. Our positive displacement piston pumps feature several different options, including continuous flow for a pulsation-free system.

We'll have one of our Mining Pumps displayed in our booth, as well as our dewatering screw press and a membrane microfiltration unit.

We offer the widest range of high-performance screw presses, for those needing a cost effective, durable, efficient dewatering solution for tailings and slimes. Our screw presses have the most advanced features, providing an easy to operate and maintain system. We also have pilot units available for trials. Our Membrane microfiltration systems utilize hollow fiber membranes and help eliminate fouling. The units are customizable for new applications or drop-in replacements are available for existing membranes.

We also offer high quality paste plant equipment including twin shaft batch mixers and specialized design services, belt conveyors, screw conveyors, fluid bed dryers, and other custom solutions.

Delivering dependable service day after day in underground and surface operations, our equipment is known to stand up to the harshest of site conditions, proven by the many years of reliable operation in surface and underground mines around the world.

Since MINExpo only happens once every four years (or in this case, five years), we are really looking forward to getting back to the show, connecting with colleagues, displaying our equipment, and discussing solutions.

In our booth, you'll be able to connect with our Leadership, Sales, and Service team members. If you would like to meet with any of our team members, please **email us** and we'll put you in touch with the appropriate person to assist with your needs.

Be sure to follow the Schwing Bioset, Inc. social media sites to see what we're up to at the show. In the meantime, read about our products, processes, and solutions **here**, ***and then stop by booth 1223 to learn more!*** You can also visit the conference website to view the event details, an expo map, a list of exhibitors, and more: [MINExpo INTERNATIONAL® 2021](#)

We are excited to see you at MINExpo 2021!
